Dr. Bengali, Hypnotist

7:00 p.m., Auditorium

Tips on how to be a successful student!

-Get Involved!

Students who are involved are much more satisfied with their overall college experience! Take time to join a club or student organization and attend activities and programs.

-Use Your Resources!

The campus has a lot of services and connections to offer students including: counseling and health services, career services, advising, and much more! Take advantage of the opportunity to get to know your faculty and approach them for help when you need it!

-Keep an Open Mind!

Throughout the college experience you're going to meet individuals who are different from you. Whether the difference is a belief, physical, or a preference, it's important to respect others as individuals and to take advantage of the opportunity to learn something new!
